PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DLA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

This installation is located near the center of Kamyshin, immediately southwest of the highway bridge over the Kamyshinka River (Figure 1). There is no apparent relationship between this installation and any other facility in Kamyshin.

The installation covers 45 acres and consists of 34 administration, barracks, and utility buildings (Figures 2 and 3).

25X1D

ered this area. A comparison of photography reveals only minor changes in the installation, except for the construction of 6 barracks. None

the installation. While the installation has the general appearance of a school, no significant military signatures are evident. There is nothing in the installation itself, or in the vicinity of Kamyshin, that would indicate the presence of armored units.

DESCRIPTION OF INSTALLATION

Road Service

A hard-surface, all-weather highway along the east side of the installation is the main road in the area; other roads into and out of the installation which connect to the city streets of Kamyshin are probably gravel or cobblestone.

Administrative and Troop Housing Areas

Area D1 has 6 rectangular multistory barracks, 3 irregular-shaped multistory administration school buildings, and 3 rectangular general utility buildings.

Area D2 has 2 rectangular multistory barracks and 7 rectangular general utility buildings.

Area D3 has 1 rectangular multistory barracks, 2 large, irregular-shaped, multistory administration school buildings, and 3 rectangular general utility buildings.

Other Buildings and Facilities

Area H contains 1 large, irregular-shaped multistory industrial building, 4 rectangular general utility buildings, and 2 tall towers or smokestacks. This area is probably a heating plant.

Athletic Field

Area K is an athletic field.
